Outgoing Message - WCC Jeremy Watson

We have reached the conclusion of the first full year our brothers have been an active chapter for the entire academic year. This year also marked the first time in chapter history we have had active brothers in every grade level throughout the college of pharmacy. We were very fortunate in adding 13 new active brothers to our chapter and we look forward to the many contributions they will add in the coming years. As I get ready to depart the islands, I want to look back and reflect on what has transpired within this chapter since its inception. What was once started with 7 students in a small room, has now grown to an organization with more than 60 representatives within every grade level of our institution.

We now have the ability to sponsor community service projects solely on our own as well as having one of the strongest membership base of any group within the CoP. Remember Brothers, we get out what we put into this fraternity. As I leave, I challenge each of you to take an active role in the coming year to make 2011-2012 the most exciting year in Gamma Theta history! On behalf of all Brothers, we wish to congratulate our recent P4's on their graduation and completion of the Pharm.D. program. We also wish the newly departing P4's the best of luck on their journeys across the islands and throughout the mainland in completing their rotations.

Alterum Alterius Auxilio Eget,
Jeremy Watson
WCC 2010-2011

Incoming Message - WCC Prabu Segaran

Congratulations to our first class of graduates! As founders of our college and our chapter, you have realized the mission of our fraternity to advance the profession of pharmacy. While I am grateful for your leadership, I ask that you continue to pursue our mission by considering our brotherhood to be a lifelong experience. As you strive to provide quality services to your patients and strengthen yourselves as health professionals, I hope that you will keep in touch. As the next WCC, I pledge to promote the scholastic, professional, and social growth of our

brothers that will make you proud. I'd also like to bid farewell and good luck to the P4s on their rotations. It has been a pleasure getting to know you, and thank you for your contribution to our chapter. To those brothers who will be with us next year, I challenge you to keep in mind our mission to develop ourselves as leaders. As I have pledged, I will strive to provide opportunities for every brother to grow while contributing to the betterment of our college and island community.

AAAE,
Prabu Segaran
Worthy Chief Counselor

February	Phi Delta Chi Car Wash Fundraiser
April	Miloli'i Health Fair Spring Fling Shave Ice Fundraiser St. Jude's Fundraiser: Letter Writing
May	Graduation Social for our fellow brothers from the Class of 2011

On April 23rd, 2011, the PDC Gamma Theta Chapter hosted a health fair in Miloli'i, a remote village located south of Kona. This underserved community with a population of about 200 people currently has no running water or electricity and is known as the last fishing village of Hawaii. Brother Prabu Segaran headed the health fair with help from fellow brothers Christopher Ayson, Kyle Higuchi, Torrey Ikeda, Christopher Kamei, Margaret Kang, Elizabeth Lee, Tanya Nojiri, Matthew Sasaki, and Reece Uyeno.

The health fair held at the Miloli'i Community Center and included free blood pressure, blood sugar, and cholesterol screenings. The event also offered brown bag medication reviews, diet, lifestyle, and health information like stroke prevention, smoking cessation, diabetes, and asthma. Individuals were given a passport to guide them to all booths and an incentive of winning raffle prizes (mostly items that they needed such as toilet paper, drinking water, brown rice, and tool sets) were given to those who completed the passport. PDC was able to provide Subway sandwiches for lunch and find local artists who volunteered their talent to provide music for the event. Since the event took place on Easter weekend, PDC encouraged families to come out and participate in the Easter egg hunt. There was also a compounding booth where the children learned how to make silly putty and dye Easter eggs.

Out of about 100 people who attended, we were able to screen about 60 individuals in the small community and we intend on continuing this successful event in the coming years.
